You can get prescription drugs shipped to your home through our network mail order delivery program.

If you have used mail order services with your current plan or if you opt in now, our pharmacy will automatically fill and ship new prescriptions received directly from your doctors or other prescribers. You may opt out of automatic deliveries of new prescriptions at any time by contacting us at 1-800-424-4495. If you never had mail order delivery and/or decide to stop automatic fills of new prescriptions, we will contact you each time we get a new prescription from a provider to see if you want the medication filled and shipped at that time. This will give you an opportunity to make sure the correct drug (including strength, amount, and form) will be delivered and, if necessary, allow you to cancel or delay the order before you are billed and it is shipped.

For refills of your mail order prescriptions, please contact us 30 days before you think the drugs you have on hand will run out to make sure your next order is shipped to you in time.

Typically, you should expect to receive your prescription drugs in 5-7 days from the time the mail order pharmacy receives the complete order. If you do not receive your prescription drug(s) within this time, please contact us at 1-800-424-8274 [Monday through Friday, from 8 a.m. to 8 p.m. ET.]
Home infusion pharmacies are specialist pharmacies that provide only certain medications and supplies generally administered intravenously that are specifically ordered by your physician. The home infusion pharmacy works with a home infusion therapy provider to safely administer intravenous therapies that would otherwise be provided in a hospital, outpatient clinic or provider's office.
